## U.S. INJECTABLE PRODUCT PORTFOLIO

**Glenmark Pharmaceuticals Inc., USA** is pleased to provide our customers with this comprehensive Product Catalog. Please note that the products within this catalog are only available for sale in the United States.

Although every effort has been made to ensure the accuracy of product descriptions and photos, it is important to note that the product images are not actual size and color may vary slightly. The information presented is to be used only as a reference guide.

### Full Prescribing Information

---

Full prescribing information, including **Black Box Warning**, Medication Guides, and/or Patient Labeling [where applicable] can be found within our online Product Catalog, contained in the Products section of our website: [www.glenmarkpharma-us.com](http://www.glenmarkpharma-us.com).

### Therapeutic Equivalence [TE] Codes

---

The FDA evaluates approved products as therapeutically equivalent to other pharmaceutically equivalent products and assigns each with a TE Code. These codes are published in the FDA's Orange Book. A brief explanation of the 'A' codes can be found below:

AA	Products in conventional dosage forms not presenting bioequivalence problems
AB	Products meeting necessary bioequivalence requirements
AB1	Products meeting necessary bioequivalence requirements, assigned when more than one reference listed drug of the same strength has been designated under the same heading
AB2	Products meeting necessary bioequivalence requirements, assigned when more than one reference listed drug of the same strength has been designated under the same heading
AB3	Products meeting necessary bioequivalence requirements, assigned when more than one reference listed drug of the same strength has been designated under the same heading
AN	Solutions and powders for aerosolization
AO	Injectable oil solutions
AP	Injectable aqueous solutions and, in certain instances, intravenous non-aqueous solutions
AT	Topical Products
